# SCORES DIE IN FIGHTING IN GERMANY

## 1200 HEAR THOMPSON AT WATERTOWN

Opera House is Packed and  
Standing Room is the Order

DISCUSSES ISSUES

Speaker Says Liberties of the  
People Are Being Threatened

WATERTOWN—We are living in a most important period of our history, a period in which the liberties of the people are threatened. This was the declaration here of James Thompson, La Crosse, delegate-at-large candidate on the La Follette Progressive republican ticket who opened the campaign for that convention, delegeration in Jefferson county. The opera house was packed and the crowd was enthusiastic. Nearly 1200 people were present and scores were compelled to stand.

It is up to us to exert eternal vigilance which is the price of liberty," warned the La Crosse man. "We want freedom of speech and of the press, open diplomacy, no militarism, and I believe the time has come to take the position that outside of wars of defense there shall be no war until after the question has first been submitted to an advisory vote of the people."

Mr. Thompson, who will enter the Republican primaries against Irving L. Lenz for the U. S. Senatorial nomination next fall, declared he believed in open diplomacy maintaining secret diplomacy leads to peace while secret results in war. He announced himself as against compulsory military training on the ground that it doesn't promote peace but fosters war.

"Do away with militarism and you do away with the most potent incentives of war," said Mr. Thompson. "And by militarism," he explained, "you may include propaganda on the part of Wall street and the big interests to foster a false and submissive patriotic spirit enabling them to use the military and naval forces to promote their selfish aims and ends."

In denouncing espionage acts and all acts tending to restrict free speech and expression of opinion, Mr. Thompson said: "Let us not forget that we live in America and not in Russia or China. Here every man is a sovereign. Here the officials from the president down are our servants, pledged under oath to do our will. To be an American means that we exercise our prerogatives in accord with true American citizenship, under the letter and spirit of our constitution."

## Thorben Ohnstad Dies in Ambulance

Thorben Ohnstad, 1910 E. Washington, died in the ambulance on his way to the general hospital this afternoon. He was a brother of Dr. E. Ohnstad. The body was taken to the Schroeder funeral parlors.

ST. PAUL, Minn.—The northwest today was in the grip of one of the worst blizzards of the winter. In Minnesota, North and South Dakota and western Canada heavy winds were blowing up drifts of snow and seriously interfering with both railroad and wire communication.

## WEATHER

Highest temperature during the past 24 hours was 60 at 1 p. m. and the lowest was 34 at 7 a. m. Precipitation was .01. Sun will set at 6:04 a. m.

The storm is moving very slowly eastward. Its center reached Lake Superior this morning. Gale is prevailing from the Missouri Valley to the Ohio. There are southerly and westerly and much colder west of the river, with driving snow in the north west. Another storm has developed on the middle Pacific slope where it is causing rain and snow.

## STOLE TO SEE HOW EASY THEY COULD GET AWAY WITH IT SAYS CARR

Meant to Quit Before He Was Caught Says Youngster Ruefully; Checks Taken From Offices Were Returned to Their Owners

LESLIE CARR, 19 year old boy admitted to a Capital Times reporter Tuesday morning "I didn't need the money I stole." "I robbed those offices just for the fun of doing it and because it was so easy. We probably wouldn't have been caught if the engine of the last car we took hadn't given out."

Carr is charged with committing the series of burglaries which recently occurred in Madison, and he is said by the police to have confessed his guilt to most of the charges. John Lancaster, a student at the Randall school, is implicated in the theft of four motor cars but exonerated, according to Carr's statement, with regard to the other robberies. Indications were this morning that other boys might be involved in the crime.

"I think what first gave me the idea of robbing offices, or of robbing at all, is that a burglar once entered our flat in Chicago. He did it very neatly and it seemed such fun at the time, that I thought I would like to try it. It's hardly worth while, though," he admitted ruefully. "I never meant to continue to do this," Carr declared, "and I returned all the checks myself, though in the case of the Menges pharmacy robbery I could have used them, as most of them were endorsed. I returned the fountain pens, too."

Here Lancaster interrupted,

declaring that he had seen Carr mail checks back to the places from which he had taken them. "We never thought about the right and wrong of it," said Carr, "we just did it to see how much we could get away with. In Chicago, of course, we couldn't have done it and gotten away with it at all. Here it was different. There were some incorrect statements as to the places I robbed. For instance, I robbed no office in the Washington building. I did enter one office, a tailoring establishment, but I just went in and looked around and walked out again. I touched nothing in there."

Asked how and at what time of the day he committed the thefts, Carr replied that he did it easily with a flat knife-like instrument, and that he entered the offices about 8:30 evenings. Both boys declared that they had not thought of their parents or that it was likely that they would be caught. "We intended to stop soon," declared Lancaster, "but we didn't stop quite soon enough."

Carr's father arrived in Madison Monday afternoon. Lancaster's father, who is in ill health, has not been notified. Both boys told District Attorney Roman Heilmann that they would tell him the whole truth concerning the matter. Carr is a student at the Wisconsin high school.

## BISHOP JONES, NOTED PACIFIST IS HERE TODAY

Utah Prelate Who Resigned After Controversy Speaks to Members

At a luncheon today at the Capitol Cafe there was an interesting meeting of the members of the Madison Fellowship of Reconciliation together with a number of ministers, professors of the university, and leaders of The World Tomorrow. Bishop Jones, one of the secretaries of the organization, and the Rev. Noble S. Elderkin, another secretary, the former having charge of the work of the organization in the west and the latter in the east. Mr. Jones was formerly a bishop of the Episcopal church, resigning to take up the work of the Fellowship. Bishop Jones is a pacifist and during the war he encountered difficulties with church authorities because of his attitude. His resignation as bishop followed this controversy.

Mr. Elderkin has just returned from the first middle west conference of the Fellowship which was held at Oskaloosa, Ia. Among the speakers were Norman Thomas of New York city, editor of The World Tomorrow; Bishop Jones, Prof. H. L. McCracken of Oskaloosa, Clarence Pickett of Richmond, Ind., Dr. Henry Seymour Brown of Chicago and Miss Jane Addams of Chicago. Mr. Elderkin and Bishop Jones explained the principles of the organization in their talks today.

Christians in all parts of the world are disturbed by the confusion of thought and utterance by those who assume to be christian teachers with regard to the war and other great social and industrial questions. The Fellowship of Reconciliation aims to apply the revolutionary principle of love as taught by Jesus. Its members believe that all society suffers no individual to be exploited for the profit or pleasure of another, and seeks reconciliation between man and man, class and class, nation and nation, race and race.

Since war inevitably involves violation of these principles, the fellowship is opposed to war, and its members have declared themselves unable to engage in it, for it implies hate while their principles call for the enthronement of love in personal, social, industrial, national and international life.

The organization wishes to use every opportunity for working in and through christian churches, believing that to them especially belongs the duty of proclaiming the unity of mankind in a spirit of christianity. It seeks in no controversial way to insist upon theories of non-resistance and no prohibition of the use of force, for to overcome evil may require the use of various

## 50 MILE GALE SWEEPS CITY; BREAKS GLASS

Shatters Large Plate Glass Windows; Much Damage Done

Hundreds of dollars worth of plate glass was blown over Madison streets Tuesday morning as the result of the 50 mile gale which swept the city during the night. Full length shop windows lay in tiny pieces on the pavements and numerous storm windows of residences were blown to the ground and broken. Owing to the scarcity of glass, many windows are being boarded up until glass can be obtained.

Firms which suffered loss of glass in their stores or offices are: A. J. Buckmaster, jeweler at W. Mifflin and N. Carroll sts.; the American Railway Express Co.; the Washington building; the Four C school on S. Carroll St.; and a plate glass door in the American Exchange bank building. The storm, which had been blowing at a fair rate nearly all day Monday, increased in the afternoon and reached a maximum of 46 miles per hour, declared Eric Miller of the United States weather bureau. During the night the velocity still further increased and at 4 o'clock Tuesday morning it was blowing at 50 miles an hour.

The storm center has travelled slowly from northern Minnesota to Lake Superior, which it reached this morning and is continuing an eastward course. If it moves as slowly as it has during the past 24 hours, Mr. Miller predicts, Madison will have another 12 or 24 hours of gale. Much colder weather is following in the wake of the storm, the temperature at Huron, S. D., falling to 18 and in many places along the border of Canada temperatures have dropped even lower. In Canada it has registered as low as 22 below.

The wind, which blew from the southwest Monday is now blowing almost direct from the west.

## STOUGHTON TO VOTE ON NEW CITY REGIME

Commission Form Will be Up on Thursday for Third Time

MAYOR OPPOSES PLAN

Capt. C. J. Rolis Leads Fight for Change; Aldermanic Terms Expire

(By a Staff Correspondent.)

STOUGHTON, Wis.—Whether Stoughton is to substitute the commission form of government for its present mayor and council will be decided at a special election to be held Thursday. If the commission form carries, the voters will elect the first commission mayor and two councilmen at the special election, April 6. If the commission form fails of adoption, the voters will vote for a mayor, four aldermen, one from each ward, a city clerk, a city treasurer, a city assessor, and other minor officials.

The chief argument advanced in favor of a change in the form of city government is greater efficiency. Opponents of the present administration charge that city officials were loathe to take over the electric lighting plant, that they wasted the city's money in constructing the Stebbinsville dam, part of which was washed out in a spring freshet, did not publish council proceedings in a homepaper from June to February, that they voted themselves money in payment for services rendered, and that the waterworks is being held up because of mismanagement of the electric system.

It will be the third time the question has been put to a vote in Stoughton. Five years ago, it was defeated by a margin of 15 votes. Three years ago it was defeated by a slightly larger margin. Men who favor a change in government, the voters will decide in favor of giving Stoughton the commission form, but friends of the present mayor and council feel sure that the voters will sustain their present system. In the meantime politics are quiet.

## KAPP REGIME FALL SEEN IN 48 HOURS

CIVIL WAR IS SEEN

Kapp Issues Decree for Death Penalty for General Strike Leaders

(By the Associated Press.)

COLOGNE—The resignation of Dr. Kapp, chancellor of the new government in Berlin is considered imminent it was declared today in reports received here. Field Marshal Von Hindenburg has written to Dr. Kapp advising him to withdraw.

BERLIN—The opinion was expressed this evening by one to Berlin within the next 48 hours. of Chancellor Kapp's first lieutenants that President Ebert, Premier Bauer and the other members of the Bauer cabinet would probably be on their way.

(By the Associated Press.)

COLOGNE—Field Marshal Von Hindenburg has made a public declaration that he is not connected with the counter revolution of which he disapproves, says the Hanover Tageblatt.

Refuse to Negotiate. (By the Associated Press.)

STUTTGART—Refusal to negotiate with the reactionary faction headed by Dr. Kapp, head of the new government at Berlin, was decided upon here today by the council of the old cabinet over which President Ebert presided. Unconditional resignation of the leaders of the new government was demanded by the Ebert cabinet. The national assembly will meet in this city Wednesday afternoon at 4 o'clock.

(By the Associated Press.)

Civil war seems imminent in Germany as a result of the refusal of the Ebert government now sitting at Stuttgart to carry on negotiations with the reactionary regime which seized power.

Unconditional surrender of the men directing the new government is demanded by President Ebert, who announced he will continue to direct the affairs of the troubled country from Wuerttemberg. The German national assembly will meet in Stuttgart tomorrow afternoon at 4 o'clock. Berlin is in the grip of a general strike called by socialist and labor leaders as a counter stroke to the assumption of power by the government headed by Dr. Wolfgang Kapp, who has issued a decree threatening all strike leaders and pickets with death if there is interference with vital public services. Extreme measures will be taken under the decree from 4 o'clock this afternoon and it is possible the crisis of the new revolution will quickly follow.

Details of the situation throughout Germany are somewhat obscure but there seems to be reason to believe the Ebert government is still holding control in the southern and western sections, while the Kapp regime is rather firmly entrenched in northeastern Prussia and in Silesia. So far as is known armed forces of the two governments have not come into collision.

Says Collapse Will Come.

DRESDEN—Communications between this city and all parts of Germany are being safeguarded, said a proclamation issued here today by the Ebert government. "Certain as it is that the Berlin venture will collapse of its own weakness, and confusion," the proclamation declared, "the fatal political and economic consequences of this step are to be deplored. All authorities are asked to assist German national assemblymen to reach Berlin."

## BIRTHS

Two births occurred at the general hospital Monday; a son was born to Mr. and Mrs. John A. Bosart, 1114 Williamson St., and a daughter to Mr. and Mrs. C. D. Walz, 433 W. Gilman St.

## Sidelights On The German Revolt

PARIS—Sentiment in Baden is strong for a separation from Berlin and in favor of a union of Bavaria, Wuerttemberg and Baden, according to a telephone despatch from Basle. It is said many Badenese are advocating joining the Swiss confederation.

PARIS—The general strike is effective throughout Germany and only food trains are running. Severe fighting is reported from Dresden, Leipzig, Brandenburg and Chemnitz.

LONDON—The national strike on the German railways was set to begin this morning says a message to the Exchange Telegraph company from Berlin filed yesterday. The railway men's officials have declared themselves in solidarity with the workmen of the country.

PARIS—Dr. Gradnauer, socialist president of the cabinet of Saxony is declared to be acting as intermediary in an endeavor to bring about a compromise through which there might be a concentration of the parties for the formation of a cabinet under normal conditions.

AIX, LA CHAPELLE, Rhensish Prussia—A general strike order was issued here today. Stores were closed and several thousand persons paraded the streets. The equestrian statue of Emperor William I, which stands in a conspicuous spot was painted red by some of the manifestants.

BERNE—Encounters at Kiel and Magdeburg are reported in telegrams from Berlin. In Kiel some naval officers have been killed while in Magdeburg there has been fierce fighting about the central post office. Conservative parties in Germany are declared to be supporting the new government without, however, being directly identified with it.

MADRID—Spain will not recognize the new German government until a majority of the

allied governments take that step.

LONDON—Eighteen meetings of communists and independent socialists were held at Leipzig last night and a general strike was proclaimed. Street fighting took place and several people were killed. When this news reached other workers all street car employees left their posts, leaving the cars where they stood.

WASHINGTON—Official advice to the state department today from Berlin said some officials there had expressed the belief that the new government would last but a short time and that Ebert and his government were sure to return to the capitol soon.

THE HAGUE—Holland so far is recognizing only the Ebert government of Germany and is dealing only with the representative of that regime here.

LONDON—Mathias Erzberger, former finance minister of the Ebert government, has been placed under arrest. The dispatch states an official communique has been issued by the Ebert government at Stuttgart declaring: "The new rulers are trying to make the people believe the constitution of the government has entered into negotiations with Dr. Kapp. This is untrue."

THE HAGUE—The Dutch government has strengthened the guard at the German frontier. A particularly close scrutiny is being made of automobiles. Passengers arriving on the frontier report traffic with Germany considerably interrupted.

LONDON—The working classes are much excited against the Kapp administration as a consequence of the shooting of a young girl in the south Berlin railway station and the killing of four persons in the North Berlin industrial section by guards.

## WOOD LEADS IN MINNESOTA VOTE

Hiram Johnson Runs Second, Hoover Third, and Lowden Fourth

(By the Associated Press)  
ST. PAUL, Minn. — Minnesota's republican-preference primary held last night in rainstorms, sleet, and blizzards gave Gov. Wood a plurality of several thousand votes over Senator Hiram Johnson on the face of available returns.

Herbert Hoover, not an avowed candidate received such strong support in the Twin Cities, that returns from about 450 precincts showed him leading Gov. Lowden. Stickers were used to put Hoover's name on ballots in most counties.

Latest available totals show the following vote:

Wood 12,627; Johnson, 8,517; Hoover 4,486; Lowden, 3,510.

The Minnesota presidential primaries have been branded as farce by Senator Johnson who recently spoke from 7:30 until 8:30 in the evening and in many towns only one polling place was open. It is alleged that much money was spent by the Wood and Lowden forces to make a showing for the "moral" effect it would have.

## Fixed Phone Rates in Black River Falls

The Springfield Farmers Telephone Company, operating in connection with the Central Wisconsin Telephone Company of Black River Falls, Wis., on Dec. 30 to the Railroad Commission for authority to increase its rates. The Commission, therefore, worked out the following schedule which it forced the company to put in force. The rates given are semi-annual not rates per month: single line \$3.00, 2-party \$7.50; residence, 1-party \$7.50, 2-party \$6.50, 4-party \$6.00; rural business, \$7.50, rural residence, \$6.

## \$6,000 OF MEMORIAL FUND IS SUBSCRIBED ON FIRST DAY

Only 600 at Massmeeting to Launch Drive, But \$2,770 is Pledged

Although the massmeeting at the gymnasium yesterday afternoon to launch the \$100,000 student drive for Union Memorial building was attended by only 600 persons, 90 subscriptions aggregating \$2,770 were pledged at the meeting, which added to amounts previously pledged and sums raised after the meeting, brought the total for the first day of the campaign to \$6,000.

Only one of the 11 canvassing teams had returns in last night, but the results of this group, added to the amounts signed for at the massmeeting, brought yesterday's subscriptions to \$4,000, according to Loring T. Hammond, treasurer of Union board. Two thousand dollars previously had been pledged by organizations. Of individual amounts pledged yesterday the average was above the per capita quota of \$24 which will be necessary to make the students' share in the drive a success, Hammond said.

Canvassers Start Today  
The campaign will be waged in earnest today when all the teams of canvassers open active operations. "One hundred thousand dollars is a small amount for the students to have to raise for their own union building, but the effort will involve real sacrifice, fitting for such a memorial," said President Birge, at the convocation yesterday.

Alfred P. Hake presided, and the university band, which has pledged half of the proceeds of its next concert as the first installment on its contribution, furnished the music.

It seems to indicate a very severe and virulent form of infection.

## 14 DEMOCRATS JOIN LODGE IN TREATY VOTE

President Made Plain His Opposition to the Re-written Reservation

SHOWED IMPATIENCE  
Final Vote on Ratification Still Uncertain—Other Reservations in Sight

WASHINGTON, D. C.—The senate on Monday made Sen. Lodge's substitute reservation on Article X of the peace treaty a part of the resolution of ratification, by a vote of 56 to 26.

Fourteen democrats voted with the Republicans in favor of the reservation in the face of a last minute notification from President Wilson that he found the modified Lodge proposal entirely unacceptable.

The president, according to a report was at no pains to conceal his impatience with Democratic senators for even troubling to ask his opinion concerning the Lodge substitute.

The story which emanated both from the White house and from senators, was that the president, on the reservation, grew so impatient over the repeated submission of "compromise" reservations to him that he did not wait to write Mr. Hitchcock a letter, but quickly wrote on the margin of the reservation, "This is not acceptable to me."—W. W.—and dispatched the letter and reservation back to Senator Hitchcock.

As it was adopted, the reservation carried the amendment drawn up on Thursday by Senator Borah and other irreconcilables and accepted by Senator Lodge as a means of solidifying the Republicans in its support. Forty-two Republicans voted for it, and none opposed it. Had the fourteen Democrats voted no, the reservation would have been adopted by a margin of two votes.

## Lives Double Life, On Two Factory Jobs

RACINE—The peculiar case of a man holding two jobs at the same time in two separate manufacturing concerns, came to light today when it was discovered that an employee of a large manufacturing company, who had been engaged to oil shafting in and about the plant, was also employed on the construction gang of another concern.

Arriving early to oil the main shafting before the manufacturing company plant began its operations for the day, he punched the time clock at 6 a. m., leaving the factory unobserved at 7 o'clock to report for work with the construction outfit. Inasmuch as his work as an oiler took him all over the large plant of the former concern, it was not noticed for several weeks that

**FEW FOLKS HAVE GRAY HAIR NOW**

Druggist Says Ladies are Using Recipe of Sage Tea and Sulphur.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grand-mother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which dawns the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.—Adv.

**STOUGHTON TO VOTE THURSDAY**

(Continued from page 1)

In Stoughton. No candidates have been announced, pending the decision at the polls.

Capt. C. J. Rollis, who commanded Co. C, 34th U. S. volunteers in the Philippines and served as a captain of infantry in the 32nd division, is the sponsor of the commission form. Tollef Landsverk and Ole Evenson assisted in circulating the petitions.

"I will not be a candidate for mayor under the commission form of government," said Mayor S. A. Peterson, Monday. "There was a time when I favored the commission form, but the fact that other cities have changed back to the mayor and council system has convinced me that our system is better. We have been pretty conservative and the present council has done pretty well. Although many friends have been urging me to be a candidate for reelection, I have not decided whether to make the run."

Mayor Peterson served nine years on the council, and was elected mayor for the first time in 1904, when he served for one term. He is now serving in his second term.

Opponents of the present administration criticize the aldermen for voting themselves salaries of \$100 each, and \$400 a year for the mayor. The mayor explained that the city is governed under a special charter, and that it is necessary to pass an ordinance providing salaries for the mayor and council under the provisions of the general law governing cities. The salaries will go into effect in April. The present council is serving without pay.

In its issue of April 18, the Stoughton paper said the aldermen, "upon thinking it over, realize that the action (voting salaries for mayor and council) was both contrary to law and unwise in policy." At present the Stoughton Daily Courier-Stub is favoring the mayor and council, and is opposed to the adoption of the commission form.

**Other Terms Expire.**

In addition to the mayor, the terms of four aldermen of the 12 in the council, will expire in April. Anfin Muen, first ward; Dan Rasmussen, second ward; O. S. Langmo, third ward, and Clarence Onsgaard, fourth ward, are the four aldermen whose terms expire in April. There are 12 aldermen in the council. The terms of L. C. Currier, city clerk; K. G. Olsen, treasurer, and B. T. Oetle, assessor, will also expire in April.

Under the commission form of government in a fourth class city, the mayor will receive a salary of \$1,000 annually, and each of the two councilmen will receive \$750. Legally Stoughton is still a city of the fourth class, although business men believe that the 1920 census will show that it has surpassed 5,000 and is now a city of the third class. That would bring the salary to \$1,200 for mayor and \$1,000 each for the two councilmen.

**TIGER ROSE IS HERE TOMORROW**

Famous Belasco Play Will be Seen at Fuller Opera House

Tiger Rose—In discussing Tiger Rose, Willard Mack's latest effort, David Belasco, who personally owns and will present this charming play at the Fuller Theater here Wednesday and night, and who has spent thousands of dollars in staging the production says:

"To me there is no form of production so absorbing as a great big thrilling story of primitive emotions such as Willard Mack tells in Tiger Rose, which I am offering to play here. And I am not offering to play here, but I am offering to play from my neighbor. What is true of me is in the main true of him, high or low, rich or poor, we enjoy the depiction of familiar emotions—that is what the whole world loves, melodrama. It is a form of play that is truest to the fact of existence and therefore the fact that finds the most universal understanding and appreciation."

Grand—The attraction at the Grand today will be Bryant Washburn's comedy-drama All Wrong. In this picture Mr. Washburn demonstrates some peculiar theories of his own as to the best method of insuring happiness after marriage. Before the conclusion of the last reel he is convinced that his theories are all wrong for practical purposes, but they are all right for laughing purposes. Tomorrow the Grand will have Nazimova in her famous picture War Brides.

**Weak, Thin, Nervous People Should Take Bitro-Phosphate**

What It Is and How It Increases Weight, Strength and Nerve-Force.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms and neck, and replacing ugly hollows and angles by the soft curves lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are often due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by C. H. Naftz and most all druggists under a guarantee of satisfaction or money back.

By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate should soon produce a welcome transformation in the appearance; the increase in weight frequently being astonishing.

Increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, should soon disappear, dull eyes brighten and pale cheeks glow with the bloom of perfect health.

CAUTION—While Bitro-Phosphate is unsurpassed for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh should use extra care in avoiding fat-producing foods.—Adv.

**MILWAUKEE MAN HARDLY GOT A WINK OF SLEEP**

Watched His Strength Slipping Away for Weeks—Tanlac Soon Restored Health

"I have just finished my third bottle of Tanlac and I can truthfully say if I ever felt better in my life than I do now I don't remember it," said Emil J. Borchardt, 1037 Fourth street, Milwaukee, Wis., an employee of the Allen-Bradley Co., manufacturer of electrical devices.

"When I commenced taking Tanlac I had been suffering from stomach trouble for two years. I had no appetite at all scarcely and what little I did eat would cause gas to form on my stomach. I would become badly nauseated and at times had terrible cramping spells. I often had dull, mean headaches and such bad dizzy spells I could hardly keep from falling. My kidneys gave me a lot of trouble and there was always such severe pains across the small of my back it was difficult for me to get up or down. I also suffered from rheumatism in my legs at times and the muscles would get so sore and the joints so stiff I could not walk without limping badly. I could get but little sleep as I was so restless at night, I would just roll and toss from one side of the bed to the other all night long and in the morning felt worse than when I went to bed. I lost a lot of weight, my strength was slowly leaving me, I felt tired and worn out all the time, and, in fact, was in a badly run-down condition generally."

"I decided after reading so many statements from people praising Tanlac I would give it a trial. Well, I had taken only a few doses when I began to feel better, and, now, while I have taken only three bottles, as I said before, I am enjoying splendid health, I have a ravenous appetite, everything I eat agrees with me, and I never have a sign of gas, nausea or cramps, and the pains have gone out of my back entirely. I never have a headache or become dizzy any more. I go to sleep almost as soon as my head touches the pillow and always get up feeling fine. The rheumatism has left me entirely. I have gained several pounds in weight, am rid of that tired, worn-out feeling and can do as much hard work as I ever could without a particle of trouble. Tanlac is surely a remarkable medicine and I am glad to recommend it to others."

Tanlac is sold in Madison by the Luckey Pharmacies and in Mazomanie by Geo. A. Shields and by the leading druggists in every town.—Adv.

**QUIT MEAT WHEN KIDNEYS BOTHER**

Take a glass of Salts if your Back hurts or Bladder troubles you.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally. Meat forms uric acid which excites the kidneys, they become over-worked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacist; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is unexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.—Adv.

# Have You Given Up?

Are you one of the 85% of men over 65 years old who have given up, and are waiting for the end? There is no reason for any man or woman to sit in a corner and give up the pleasures of life—the joy of living—the social and business activities that make life worth while. In middle life and old age the cells of the body are not reconstructed as rapidly as in youth. The cell-salts so abundant in the rich red blood of youth are insufficient in the blood of older people. The heart action slows down, the circulation of the blood slackens, the blood lacks a sufficient supply of vitalizing oxygen and the organs of the body fail to function. The body in youth possesses more heat than in middle life or old age. That's because there is an abundance of cell-salts in the blood when the body is young—and the blood is rich in oxygen which burns up and eliminates the waste tissues and worn out cells. In youth the quick hot blood urges to action and the body renews itself quickly. As we grow older we slow down, sit in a sunny corner and give up. We fail to learn the lessons of life and weakly surrender to fear, worry and imaginary diseases that are merely Nature's cry for the natural cell-salts that she must have to keep the body strong and vigorous, and the life-giving oxygen that burns up the worn out cells and vitalizes the blood, making the entire body glow with health and energy. REOLO has remarkable tonic and reconstructive qualities. It supplies to the thin, inactive, impoverished blood the natural cell-salts, iron and oxygen that the body must have to keep well and renew itself. Try the systematic REOLO Treatment for six weeks and you will be delighted with the steady improvement in your strength, energy and mental activity. The large package of 100 tablets, sufficient for two weeks' treatment only costs \$1.

## Bluebirds Heard and Robins Seen

Bluebirds were heard and a robin was seen in the sixth ward Monday also a flock of geese flew north Sunday morning over the city, quacking noisily—and all this despite the untoward circumstance that the ice upon Lake Mendota is 33 inches thick and on scurrying around on both lakes, and with a spanking breeze, the fastest automobile in town would find it a considerable chore to beat an ice boat. Wild geese for a day of two are thick on the Yahara.

## Makers of Madison-- Our Nurses

Your work is the work of mercy, your service the service of self-sacrifice. In our hospitals, our schools, our homes, you, nurses of Madison, move quietly about your tasks and keep your vigils—holding our very lives in your capable hands.

Who may speak to you of the frailty of life, of the uncertain future—you who come so often into the presence of bereavement?

You know the need of life insurance—you who see homes left without a protector, women struggling to support their children.

Are you protected by insurance? Profit by the lessons you have learned better than any of us, and provide now against the dangers of an unprotected future. Do it for your own sake and the sake of your dependents.

An endowment policy will bring you a substantial sum of money—or a "straight life" will protect your family. Call Mr. Larson, Badger 1148.

## DEAN F. W. ROE RAPS CHEATERS

Also Urges Better Balance Between Conservatives and Radicals

"A reasonable attitude is needed in dealing with radicalism on the campus," said Dean F. W. Roe in a talk given at vespers Sunday afternoon in Lathrop parlors on the subject, "The Eleventh Commandment, or Applied Christianity." "Radicalism ought to be here, I think, for surely there is no better place for it than a big free-thinking university. But it is to be regretted that the more conservative, wholesome element among undergraduates does not take a greater interest in open discussions and become active members of organizations such as The New Forum. Those of you who do not agree with the extreme attitude taken by some should get into the arena, show your colors, and take active part in the questions which are besetting our country today."

Dean Roe spoke especially of cheating in connection with the application of Christian principles to our every day life. "The cases which come before the discipline committee every week for cheating are often very pitiable, and there is no more humiliating position than that of a cheater who has been found out. Not enough is being done in my opinion either by faculty or students to better conditions in regard to this matter. If the students would agitate the question among themselves they could do a great deal."

The talk was a follow-up discussion of the religious conference and dealt with practical campus problems. The meeting was led by Winifred Titus.

# BIG TEN MEET TO END INDOOR TRACK SEASON

Jones Hopes to Score in Nearly Every Event at Northwestern

The indoor track season will close next Friday and Saturday afternoon with the conference indoor meet at Northwestern university, Evanston, Illinois.

With contestants entered by every school in the "Big Ten," the results of the approaching struggle for honors is quite certain.

Johnson, Strong, Man

Michigan, with a well balanced squad of track men, among whom is Carl Johnson, recognized as one of the leading cinder performers in the west, is looked to by many to take first place in the meet. Two other strong opponents that Wisconsin will have to back are Illinois and Chicago.

Johnson's events are the dash, the hurdles, and the high jump, and he will no doubt come close to winning all of them. Farrell expects to back him up by taking a few seconds and thirds in the other events.

The best events that the Suckers have are the quarter and half mile distances which are run by Captain Emery and Phil Spink to good advantage. Higgins of Chicago is probably the best shotputter of the conference.

Badger Chances Good

As for Wisconsin, Coach Tom Jones is optimistic.

"I see no reason why the Badgers can not place in 'most every event,'" he said last night.

Dayton stands fine chances of winning the mile and Crump and Brothers will undoubtedly figure in the two mile run. Captain Andrews' ability in the hurdles, as shown at the Illinois races, will probably secure a place for him in his races.

Warren O. Taylor, of Ashland, sophomore in the Course of Commerce, was elected captain of the 1920-21 basketball team at a dinner given the members of the team at the home of Coach Guy S. Lowman, Sunday night.

Taylor, who was the running mate of Captain "Mike" Knapp at forward for most of the season, will have two more years of competition. He is a member of Alpha Sigma Phi fraternity.

## ROUNDY'S CORNER

The student body has formed a Hop committee. The board of regents should investigate.

Babe Ruth wants half of his sale money to the New York club, which is \$50,000 for his end. If he gets that he won't have to play.

Billy Evans, the American league umpire, fell down a flight of stairs and broke two ribs which goes to show you that umpires are human.

Raxter Hall wants to bet even money that the Illinois Central train doesn't come in on time all next week. If he said a year he might get a bet.

It is a cinch that bootleggers will not be for the 2-per-cent beer bill. The Wisconsin crew will row in Lake Mendota this year. As long as they stay on Mendota it will be all right.

Dude Gaudin is posting bills in the country now, which goes to show you what a great man he became after taking shorthand for two years.

Gigger Daggett would like to know if free lunch goes into effect with that 2 per cent bill.

The only reason I can see why some of the students part their hair in the middle is to let you know they have got a well balanced head.

## Wisconsin Bowlers Tie For 1st Place In Doubles At Peoria

PEORIA, ILL.—A. Schultz and F. Haack of Sheboygan, Wis., with a 123 score, went into a tie for the American Bowling congress today. They equaled the mark of O. Whitehead and E. Grubb, St. Louis.

A. Schultz of the Sheboygan team protested the score, alleging he had counted nine pins in the second frame of his first game, instead of eight, as the scorekeeper had recorded, giving the team a total of 1,238 and the leadership. Spectators appealed to the officials that Schultz was correct in his claim, but the protest was not allowed.

A score of 616 turned in by R. Werner, Sheboygan, was high for the day in the individuals, but it failed to place him among the ten leaders.

The Orange Crush No. 1 team of St. Louis established a record for a single game Sunday, bowling 1,113 pins. The score came in the third frame of their team competition, giving them a total of 2,861 pins, and third place in the five men standings. The former record was held by Birk Brothers of Chicago, made in 1917 at Grand Rapids.

## CURL HOUSE ASSURED BY STOCK SALE

Madison Curling Club Reports \$7500 Stock Sold for Building Project

The membership committee of the Madison Curling Club reported last night at the regular meeting held in the Association of Commerce room that \$7,500 worth of stock in the new curling house had been sold.

L. J. Tucker, winner of the Portage bonspiel a few weeks ago, and the sponsor of the movement here to build a curling house for Madison, said that the amount of stock already sold made the curling house an assured reality.

The house will contain six sheets of ice, and will accommodate as many as two hundred players. It is planned to limit the membership to 200, and as 157 have joined, there are but 43 vacancies.

A meeting will be held Saturday night to wind up the membership rolls, and the Club has asked that all who contemplate joining signify their desire by that time. Blanks will be supplied on application to the membership committee or from the secretary of the Cantwell building.

Local curlers will be given every opportunity to join the club, according to the decision last night. A message from the Portage Curling Club last night offered to take over several shares of stock which would

## CHICAGO GRAIN REVIEW

CHICAGO—Fresh strength which manifested itself in the corn market today was associated with reports that for the first time in several weeks the elevator here were receiving eastern cars for the shipment of grain. All deliveries of corn reached the highest figures yet on the upturn. A brief setback after the opening was due to profit taking. Initial quotations which ranged from 1 1/4 to 1 1/2 up with May 1.53 1/4 to 1 1/2 and July 1.46 1/4 to 1.47 followed by general downturns but then by a rise higher than before.

Strength in foreign exchange and in domestic securities led to additional gains later. The close was nervous 2 1/4 to 3 1/4 higher with May 1.53 1/4 to 1 1/2 and July 1.48 1/4 to 1 1/2.

Oats ascended with corn. After opening unchanged to 1/2 up the high, including July at 77 1/4, the market sagged a little and then resumed its advance.

Provisions were somewhat firmer but dull.

## RAIL STOCKS ARE IRREGULAR

Money Eased to 8 Per Cent; Secondary Issues Strong

(By the Associated Press)

NEW YORK—Substantial advances were made by Crucible Steel, General Motors and Texas company, kindred shares, raising 2 to 5 points. Extensive trading was limited by the sudden advance and much of this advantage was lost, Crucible Steel falling back sharply.

Reactions were partly offset however, by free buying of the more staple issues, especially shipping equipments and copper, silver and oil of the Mexican group.

Maintenance of the nine per cent rate for call money provided further selling before notation of gains occurred during the less active session. Although money eased 1/2 per cent, rails displayed marked irregularity. Investment shares, including moderately priced secondary issues are represented by Texas Pacific, Rock Island and New Haven were fairly strong.

Suppose you had a fire?

Would the insurance you are now carrying on your home or business property compensate you for your loss?

Five years ago when you insured your building for 75 to 80 % of its true value you were adequately covered.

Today that same policy does not represent more than 40 to 50 % of the value of the structure.

The insurable value of your building is the figure for which a responsible contractor would agree to reproduce it today.

You are not properly protected unless you increase your insurance. The additional cost is too small to further assume the risk.

Our insurance department will be pleased to advise with you about your insurance requirements.

there is such an understanding is only maintaining the standpoint out of spite, and to give its helping hand to discredit the present state board and some members A. S. of E.

The so-called Titmore forces have nothing to avoid.

Truth is, that plans are pushed for a business organization in the A. S. of E. it is a mis-statement on your part, that it is planned that this new business organization shall absorb the warehouses and store properties of the A. C. A. and that the Bloodgoods, through their influence in the A. C. A. can make the A. S. of E. the selling agency for

I for one stand on the same standpoint I held in my previous letter that there is no plan for an understanding, alliance or agreement between the A. C. A. and American Society of Equity. The Capital Times in maintaining that the independent Harvester Company. I still contend that the Marshall field meeting was a purely A. S. of E. affair and was open to everyone. Mr. Schmidt and Mr. Johnson in at-

was elected as president at the last state convention, then he did only what a thousand others have done and do.

The letters sent out by officials of the A. C. A. to their shareholders contained first only the truth, but in the second, in which it was said that the A. C. A. succeeded in coordinating the various memberships of co-operative farm organizations, is as far as the A. S. of E. is concerned, a fabrication out of the whole cloth. The same can be said of the statement that the leaders of the A. S. of E. are willing to aid the A. C. A. financially by supporting the sale of bonds.

The members of the State Board and I, myself, had a meeting with Mr. Francis Bloodgood and in his office and the truth is that he laid a plan for consolidation before the board and he stated at this meeting

nor argue with the deal or could have any connection with the A. S. of E. and that when the A. C. A. is completely cleared out, the previous stockholders in it could be re-organized in the A. S. of E. as full fledged members with the same duties and rights as we at the present time enjoy, and thereby own and control their own warehouses or stores.

My statement from February 13th, I uphold and am ready to defend it against everybody.

Mr. M. P. Johnson, was only speaking at the Marshfield conference in accordance with Mr. Carnahan's statement as far as wheat is

concerned and in answer to some questions relating to it, by different members of the A. S. of E., explaining the difficulties farmers of the Northwest have with grading

to do with it and is done by kindness for the purpose to help the A. C. A., counting on it that in case the A. C. A. could put their affairs in good shape to have him in a leading position of this organization.

All statements of The Organized Farmer are made for the purpose, as I stated above.

The call of March 3rd by the committee appointed at the March conference is correct and the business plan will be in the hands of every member, as soon as printed, which may be accomplished in a few days and if you will give these plans the same consideration you are giving which is your estimation.

In addition to all, I would like to

followers have steadily attempted to cover up this meeting.

In a communication to The Capital Times on Jan. 14 Mr. Tittmore made the following statement: "Another misstatement of fact: The board never adjourned at any time to hold a meeting in Mr. Bloodgood's office." In a communication to The Capital Times on Feb. 13 Mr. Schweinburg made the following statement: "Your further assertion that the board of directors of the A. S. of E. went to Milwaukee to confer with Mr. Francis Bloodgood regarding cooperation with the A. C. A. is to be classed with all the statements coming from a man like you."

Immediately after the story of the meeting in Bloodgood's office was printed in The Capital Times, Mr. J. B. Houston, secretary of the

Mr. Schweinnert knows that the Tittmores for months has been back of the proposition to have Equity absorb the A. C. A.

Mr. Schweinnert's attempt to displace the presence of A. C. Schmidt and M. P. Johnson at Marshfield in the same innocent way is no less impressive. Mr. Schmidt and Mr. Johnson were not at the Marshfield meeting as Equity members. They were there because they were mightily interested in the scheme that was being there proposed.

And the A. C. A. is very greatly interested in the scheme. Mr. Schmidt's letter to the creditors of
